PROUD MANUFACTURERS OF SHADE SOLUTIONS, OUTDOOR FURNITURE & A RANGE OF BRANDING SOLUTIONS

we didn't invent shade... we just perfected it

MULTIFUNCTIONAL WATER BASE

Technical Specifications

Diameter of base: 60cm • Weight when filled with water: 30kg

Easy to position:

Features two indentations for easy carrying plus an optional nylon roller for movability. Can also be placed on its side and rolled into position.

Fits many pole sizes:

The adapter sleeves allow one to use a variety of pole sizes including 26mm, 32mm, 38mm, 48mm and 50.8mm poles for many applications.

Simple to set up:

Setting up the Nemo is foolproof with only one allen key needed. All adapter sleeves lock into position while the alignment system keeps the pole vertical.

Easy to transport and store:

The Nemo is stackable for easy transportation and storage. The design has a low weight for shipping yet is extremely sturdy when filled with water.

Maintenance Free:

Features stainless steel fittings and tube, nylon roller and adapter sleeves plus UV inhibitors. Needs no maintenance and handles any climate.

Leaves no marks on surfaces:

A filler plug seal ensures no leakage while all the surfaces are self-cleaning. Rain drainage holes & a ridged underside means no stains on the floor.
